

## Field Trip Permission Slip

Students will be taking a number of field trips throughout the school year. Field trips are used to provide opportunities for students to experience learning outside of the classroom and school building. Many field trips are within the city of Lamoni. However, special trips may be scheduled throughout the year that will take students out of Lamoni. You will always be notified when your children are leaving the building through communication from your child's teacher. Teachers will be sending information home regarding each planned trip and will give parents an opportunity to not allow their child to go on a particular trip.

My son/daughter \_\_\_\_\_ has my permission to attend field trips taken in LAMONI by his/her class during the school year. I retain the right to withdraw the privilege of being involved in attending field trips at any time.

Parents will receive separate notification and permission slips when children are attending field trips outside Lamoni.
